
Building an InnerSource Market in Spain

InnerSource Day @ OSCON

Portland, July 2019

Motivation

The image shows a close-up, slightly angled view of a computer monitor displaying a financial trading platform. The screen is divided into several sections:

- Top Left:** A table of market data with columns for various financial metrics.
- Top Right:** A line chart showing price fluctuations over time, with a grid background.
- Bottom Left:** A candlestick chart, likely representing price movements over specific intervals.
- Bottom Center:** A larger line chart with a title that reads "Gold, spot - 1.276,820 - 23:00:00 13 glu (CEST)". Below the title, it says "Gold, spot (Bid), 1 minute, #159 / 300, Logarithmic, Heikin Ashi".
- Bottom Right:** A section titled "Quote List [2]" showing "World Markets" with a table listing various indices like "Dow Jones Comp" and "SSE Comp".

The word "Context" is superimposed in the upper left corner in a large, white, sans-serif font.

95% of the companies in Spain are smaller than 10 people.

The average size of the company in Spain is around 5 people.

(Germany for instance is around 12).

Figure 2.2. **Enterprises by size, business economy**
 Percentage of all enterprises, 2014, or latest available year

Where to Start?
